

# Tutorial : probabilistic programming with Greta

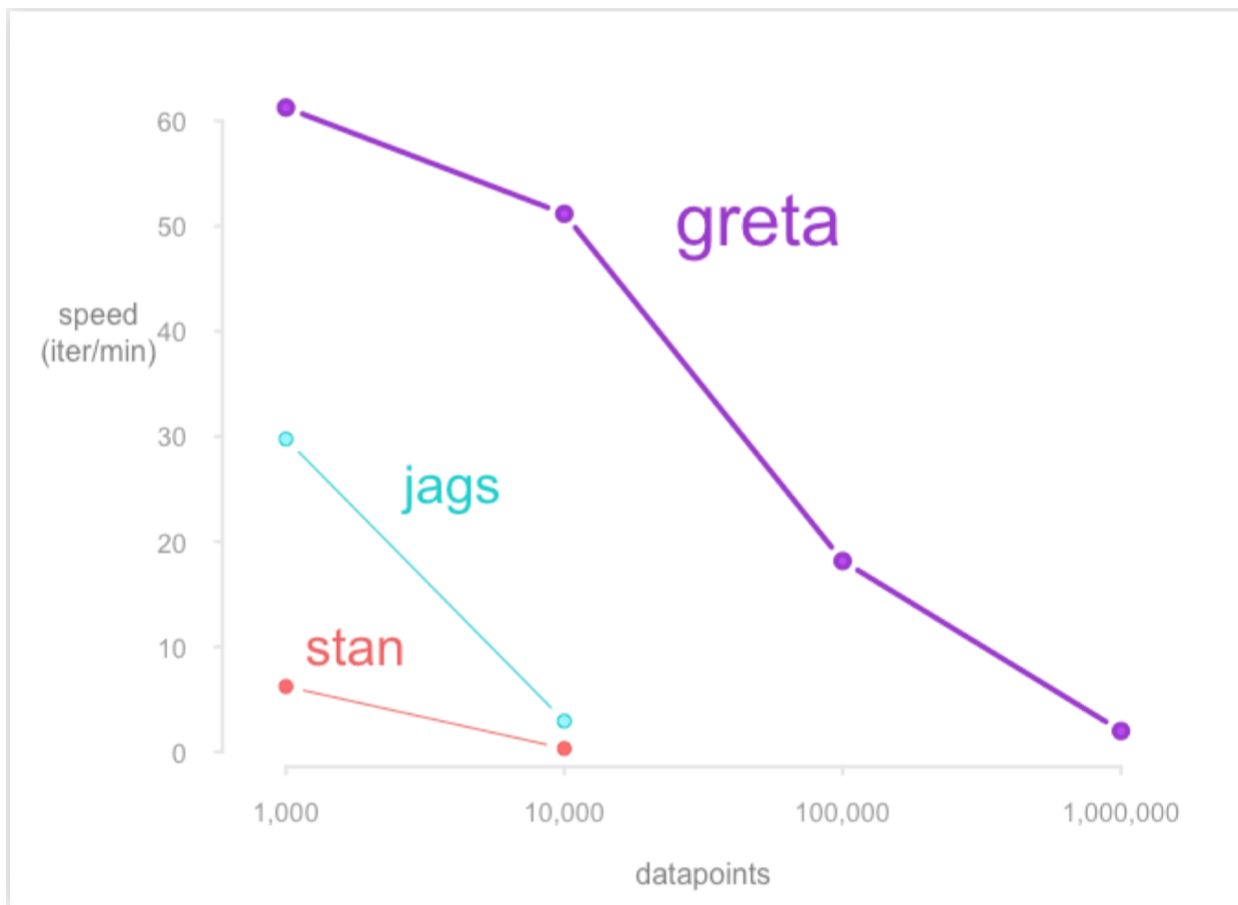

Prasanna Bhogale

BerinR meetup

12 December 2018

# Greta

- Built on top of `tensorflow` and `reticulate`
- highly efficient linear algebra
- highly parallel (GPU !)

probit regression with 50 predictors see [this](#)

## Useful links

- [Greta repo](#)
- [Vignette](#)
- Some [examples](#)

Code !

```
see linear_regression_greta.Rmd
```

Thank you

Prasanna Bhogale
